

1. 'Jogurt Polski' natural drinkable yoghurt 1kg
'Jogurt Polski' strawberry drinkable yoghurt 1kg
'Jogurt Polski' caramel drinkable yoghurt 1kg

Spółdzielnia Mleczarska MLEKOVITA

The family of Polish yoghurts ('Jogurt Polski') is enlarged with products offered in a 1 kg bottle in three flavours: natural, strawberry and caramel. These yoghurts are perfect for direct consumption and recommended, among others, as an addition to cereals, muesli, fruit or cold desserts. 'Jogurt Polski' is a natural yoghurt perfect at any time of the day: for breakfast, a break at work, a snack, afternoon tea or dinner. It tastes well not only with sweet additions – it is also great for salads, dips and sauces. Larger, economical packaging and a convenient, handy bottle allows you to conveniently divide it into portions of any size. 'Jogurt Polski', in strawberry and caramel flavour, is perfect at any time of the day: for breakfast, a break at work, a snack, afternoon tea or dinner. Larger, economical packaging and a convenient, handy bottle allows you to conveniently divide it into portions of any size.

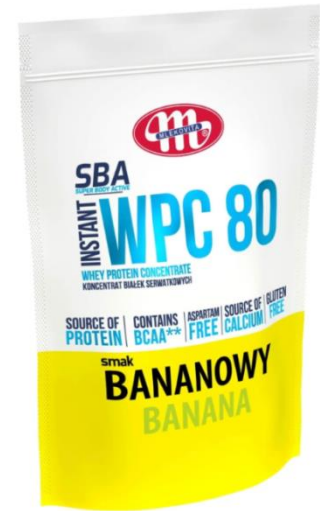

2. Super Body Active WPC 80 – whey protein instant concentrate
Super Body Active WPC 80 – whey protein instant concentrate with strawberry flavour 700 g
Super Body Active WPC 80 – whey protein instant concentrate with chocolate flavour 700 g

Spółdzielnia Mleczarska MLEKOVITA

Super Body Active WPC 80 is a whey protein concentrate available in the following variants: natural and instant versions: banana, vanilla and chocolate. It is the highest quality whey protein concentrate, which is a rich source of wholesome proteins (including BCAA amino acids), contributing to the growth and maintenance of muscle mass and the calcium necessary for strong bones and healthy teeth.

It does not contain aspartame and gluten. In addition, it is offered in an instant version with an excellent solubility, whereas the addition of natural sunflower lecithin reduces the foaming of the product (lecithin is a component of almost every cell of the human body; e.g. it stimulates the nervous system, supports concentration and memory processes, participates in the processes of metabolism, supports the absorption of fat-soluble vitamins, delays the aging process). Whey protein concentrates produced by MLEKOVITA contain no unnecessary taste 'improvers' such as sugar or fat, that strengthen the taste, but at the expense of the protein content in the finished product. Our company is committed to supply the best-tasting products, but above all to ensure their best nutritional value: with the highest possible content of wholesome protein.

3. 'Masło Polskie ekstra' Polish butter 82% of fat, 200g

Spółdzielnia Mleczarska MLEKOVITA

'Masło Polskie ekstra' – Polish butter 200 g. Butter is one of the most popular food products. It should be present in the diet of every person – milk fat is the best digestible of all food fats – the digestion process takes place much faster, so it quickly turns into energy and increases the body's vitality. 'Masło Polskie' offered by MLEKOVITA is a real butter of the highest quality, produced exclusively from pasteurized cream, without any additives, preservatives, dyes and gluten. It is a natural product with a high content of minerals and vitamins necessary for the body: it contains naturally large amounts of mainly vitamin A, carotenoids and vitamins D and E. This butter offers excellent spreadability, as well as uniform consistency, colour and taste. It contains only milk fat (min. 82%). The product is intended mainly as a spread, but it may be also used for other culinary purposes, including preparing cakes and desserts, frying, baking, stewing and cooking.

4. Fruit buttermilk 1l

Okręgowa Spółdzielnia Mleczarska in Koło

Fruit buttermilk from Koło, without the addition of glucose-fructose syrup and modified starch, is a refreshing drink profitable for your health, packed in an environmentally neutral, fully recyclable cardboard box. It can be used in various ways in kitchen, but its handy opening makes it suitable for putting in a bag or backpack and enjoying during a lunch at school, work, picnic or trip.

5. 'MU!' UHT 1L lactose-free milk

Okręgowa Spółdzielnia Mleczarska WART-MILK in Sieradz

Cow's milk is a valued component of any diet. It tastes great and contains many ingredients necessary to maintain good condition of the body, including proteins, calcium and vitamins. However, in recent times more and more people suffer from lactose intolerance. 'MU!' UHT lactose-free milk, available with 1.5% and 3.2% fat content, is a good alternative for all of them. 'MU!' UHT lactose-free milk is cow's milk processed by a heat-treatment at a temperature of min. 135°C and an enzyme called lactase, which breaks down lactose into simple sugars. 'MU!' UHT lactose-free milk is aseptically packed in cardboard packaging with a capacity of 1 litre.

6. 'Wypasione' sweetened condensed milk, 150g 'Wypasione' condensed sweetened milk with cocoa 150g

Spółdzielnia Mleczarska MLEKOVITA

'Wypasione' sweetened condensed milk is a new product in the offer of MLEKOVITA, available in two flavours: classic and cocoa. Offered in a tube, it is convenient to use - the product is ready for immediate consumption, but it can also be used as an addition to a wide range of dishes. This thick, velvety and creamy milk perfectly enriches the taste of beverages: coffee or chocolate, ice cream, fruit and desserts with fruit and sweet pastries. The sweetened condensed milk is produced according to a traditional recipe, without the use of thickeners, flavours and dyes.

7. 'Polski Mix' - a fat mix for spreading 68% fat, 200g

Spółdzielnia Mleczarska MLEKOVITA

Spreadable fat mixes are a category with growing sales potential. They were created to combine the advantages of two products in one. In order to meet the expectations of markets and consumers, Mlekovita Group introduces a new product to the market: 'Polski mix' a 68% fat mix for spreading, which contains 50% of milk fat, making its taste similar to traditional butter, and 18% of vegetable rapeseed oil, one of the healthiest oils in the world, which improves the lubricity of the product. This Polish 68% spreadable fat mix is in line with the current healthy eating trends: it is a product without preservatives, dyes, flavours and emulsifiers. It is perfect for everyone who cares about healthy eating and a daily diet with a majority of low-fat products with a lower content of calories and cholesterol. It is intended mainly for spreading on bread. Weight: 200 g

8. Favita cheese for grilling and salads 200 g

Spółdzielnia Mleczarska MLEKOVITA

Favita cheese for grilling and salads 200 g. This well-known and popular Favita cheese is now available in a completely new version: perfect for grilling and salads. The simple composition and compact form of this cheese provide a wide culinary use. Favita for grilling and salads is a cheese with a firm consistency. It makes it ideal for frying or grilling – in this form it will be perfect as a snack, addition to dinner dishes and salads. It can also be used to prepare skewers or as an ingredient in vegetarian burgers.

9. Favita salad and sandwich lactose-free cheese Soft brine cheese, fat 270g

Spółdzielnia Mleczarska MLEKOVITA

Favita is a well-known and well-liked, delicious salad and sandwich cheese with a characteristic slightly salty taste. It concentrates all milk components (one cube contains about 1 litre of milk) and numerous nutrients: it is primarily a source of wholesome protein and calcium, necessary for strong bones and healthy teeth.

Favita cheese (available also in the lactose-free variant) is intended mainly for salads, perfectly matching with fresh vegetables and fruit. It is also an excellent choice for sandwiches, meat stuffing, pizza, sauces and other dishes, giving them its unique flavour. Favita cheese is the best recognized brand among consumers opting for salad and sandwich cheese. It has a soft and elastic texture, perfectly white colour and a characteristic flavour. Many people suffer from intolerance to lactose, the disaccharide found naturally in milk. They usually give up eating dairy products, depriving themselves of many of the valuable nutrients, needed for the proper functioning of the body. This is due to the lack or deficiency of lactase, a digestive enzyme necessary for the breakdown of lactose into simple sugars that can be absorbed, i.e. glucose and galactose. In order to meet the nutritional needs of such consumers, MLEKOVITA has prepared a line of lactose-free products – including the popular Favita cheese.

10. Polish thermized cream 18% in a 240 g tube

Spółdzielnia Mleczarska MLEKOVITA

'Śmietana Polska 18%' is a Polish cream produced from the highest quality raw material. It has a pleasant, fresh smell, light cream colour and a uniform consistency, distinguishing it from other products of this type.
