# Gold Medal – POZNAŃ MEDIA EXPO 2020

1. **EVOBOX IP set-top box for receiving IPT cable TV**

InterPhone Service z Grupy Kapitałowej Cyfrowy Polsat / Cyfrowy Polsat S.A.

EVOBOX IP allows you to receive TV channels via fixed broadband Internet from one of the three operators (Plus, Netia, Orange), without the need to install a satellite dish. It provides access to over 150 channels (including generally available stations, e.g. Polsat, TVN, TVP 1, TVP 2, TV4) and online services, such as Cyfrowy Polsat GO and HBO GO, and has modern functions, including TimeShift (rewind), restart (stop) or CatchUP (rewind or watch from the beginning), allowing the subscriber to use the TV on his terms.

2. **EVOBOX STREAM decoder for receiving OTT Internet TV**

InterPhone Service z Grupy Kapitałowej Cyfrowy Polsat / Cyfrowy Polsat S.A.

EVOBOX STREAM allows you to receive TV channels over the Internet from any exhibitor. The set-top box has access to online services, ie Cyfrowy Polsat GO, HBO GO, and innovative functions such as CatchUP (watching up to 7 days back), reStart (watching from the beginning), TimeShift (stopping and rewinding), which allow you to watch TV on your own terms. The Mozaika application recommends content from the TV program and online services, and the Store gives you the opportunity to purchase packages and events in the PPV system directly from the set-top box when choosing the most convenient form of payment. Built-in wi-fi module ensures mobility, and DVB-T allows reception of 28 channels of free digital terrestrial television.

3. "COMSAT TE 2050 HD" TERRESTRIAL TELEVISION RECEIVER

COMSAT SP. Z O.O. SP. KOMANDYTOWA

Aesthetics and usability in a compact size. A handy remote control (the arrangement of buttons ensures the convenience of use) with the functions of operating the attached TV. The buttons on the front panel allow operation without a remote control. Support for external USB memory. A large number of supported formats (movie / music / photos). Automatic or manual channel search. Favorite channels list and parental lock. The auto power off function is designed to save energy and the environment.
