

beautyVISION – Winners of the Gold Medal of Grupa MTP

1. MollyNails Automatic nail brush with retractable mechanism and bristle protection

GNBLAB Sp. z o.o.

Discover this modern automatic brush that changes the way you work! Thanks to the patented mechanism for extending and retracting the bristles, you will forget about lost caps and damaged brushes. Protects the bristles, ensuring comfort and attention to every detail. The perfect choice for professionals who value perfection and work comfort.

2. Mobile manicure desk

MN-SYSTEM Sp. z o.o.

MOBILE NAIL STYLING DESK is a comprehensive solution for nail stylists, combining all the necessary devices in one, compact desk. Its equipment includes: ✓ Two built-in 64W LED lamps - ensuring even curing of the styling. ✓ Professional milling machine with smooth speed regulation (0-30,000) with manual and foot control. ✓ Efficient dust collector that takes care of cleanliness and comfort of work. ✓ Adjustable LED lighting, adapted to needs - the ability to change the light colour (neutral, cold, warm) and intensity. ✓ Ergonomic hand rest - for the comfort of both the stylist and the client. All devices are integrated and controlled by a touch panel, which ensures intuitive operation and work comfort at the highest level. Once you unfold the desk, simply plug one cable into the socket – and you're done! Thanks to our innovation, mobile nail styling becomes even easier. The desk folds into an elegant, handy suitcase on wheels, weighing only 15.5 kg and fitting in any trunk. With our desk you work comfortably – wherever you are!

3. AESTHETIC GLOW Line

**Farmona Professional / Laboratorium Kosmetyków
Naturalnych FARMONA Sp. z o.o.**

The products strongly firm and elasticise the skin, and additionally brighten discolourations and eliminate dark circles around the eyes. The AESTHETIC GLOW line is suitable for treatments dedicated to all skin types, even skin prone to irritation. The products leave the skin radiant, brightened, moisturised and firmed. They are ideal for anti-aging therapies.

4. Pick'N'Mix Line

APIS NATURAL COSMETICS Sp. z o.o.

Pick'N'Mix by Apis Natural Cosmetics is an innovative line of hair care cosmetics, created with personalisation in mind. It combines natural ingredients with modern technology, offering products for regeneration, hydration and protection. It allows you to create individual care rituals, ensuring healthy, shiny and strong hair. High quality, effectiveness and affordable price distinguish it on the market.

5. PODOLOGIC THERAPY Line

**Farmona Professional / Laboratorium Kosmetyków
Naturalnych FARMONA Sp. z o.o.**

The Podologic Therapy line from Farmona Professional includes five innovative preparations with the most effective active ingredients. It can handle even the most difficult foot ailments, significantly facilitating work in a podiatry office. The line includes: Cleansing Foot Fluid, Barrier Foot Paste with Hyperkeratosis, Ointment with Natural Oils for Calluses, Propolis Ointment for Corns and Calluses, and Creamy Serum at the end of treatments.

6. NEOFRAX

ATTRE.EU Sp. z o.o. sp. k.

NEOFRAX is a fractional CO₂ laser with an extensive treatment menu adapted to a wide range of problems. There are programs to choose from for superficial action, deep action, and a mixed mode. Advanced technology facilitates the operator's work and ensures the safety of the procedure. The laser uses a completely new beam technology for surface layers – the delicate Spot Technology. The technology accelerates the skin regeneration process, supports healing and increases the safety of the procedure.

7. Training program for cosmetologists using ultrasound

P.H.U. Monika Piórkowska

An innovative approach to education, the use of the latest technologies and focus on practical skills make Piórkowska Akademia set new standards in aesthetic cosmetology training. By introducing ultrasound, we open the door to the world of modern, safe and precise aesthetic cosmetology for our students. We are proud to be a leader in this field and share our knowledge and experience with future generations of professionals. The use of ultrasound equipment in aesthetic cosmetology training brings many benefits, both for the students and for the quality of the courses conducted. The training facility can introduce ultrasound work into practice by integrating this tool into theoretical and practical programs, which allows trainees to gain valuable skills in diagnostics and safety during aesthetic procedures.

8. Seaweex® Laser THULUMIA

Seaweex Beauty Concept

The Seaweex® THULUMIA laser is one of the most innovative devices used in the treatment of skin lesions. Thulium laser treatment involves the use of a beam of light with a specific wavelength of 1927 nm. Seaweex® THULUMIA laser is the most powerful technology that works by creating thousands of micro-punctures in the skin, which stimulates the production of new collagen. It is safe and effective, and the skin does not require a recovery period after the treatment. The THULUMIA laser has a rejuvenating effect, improves skin firmness and structure, has a lifting effect, and stimulates the skin to produce new collagen and elastin. It works great on all types of discolourations, melasma, freckles, and age spots. Thulium laser is an effective and precise method of combating skin imperfections. This treatment combines high effectiveness with minimal invasiveness. It works comprehensively on the skin: reduces discolourations and scars, reduces wrinkles and improves the structure and firmness of the skin. With lasting effects and a short recovery time, it is an excellent choice for people who do not want to undergo more invasive procedures.

9. Vegan anti-ageing makeup kit

Eva Perfect Make Up / Sigma Krzysztof Winiarski

Makeup done with the vegan Eva Perfect Make Up cosmetics set will bring the desired effect of freshness and rejuvenation. The deeply moisturising serum, thanks to pentavitin, will give the skin the charm of smoothness, the silky mattifying foundation with real diamond powder will create a matte look with subtle radiance, and the velvety powder will optically smooth the skin thanks to transparent ceramic microspheres that create the Soft Focus effect. This kit contains carefully selected technology and unique ingredients. And the original passion of a make-up artist with 25 years of experience.
