

1. IPELL

DEFRO Sp. z o.o., Sp. k.

IPELL - Free-standing pellet stove with built-in storage container. IPELL meets the stringent EU emission requirements confirmed by tests performed by BImSchV2 and Ekoprojekt.

2. SET fireplace - ready solution that combines modern and eco-friendly fireplace and finished steel structure

KRATKI.PL Marek Bal

SET is a modern approach to the fireplace. We offer our customers the opportunity to buy not only the fireplace insert, but also the entire built-in and finished arrangement. You do not need to participate in the design process - we give you complete and proven solutions. This prevents most of the assembly problems and shortens the installation time to a few hours.
