

## INTERMASZ 2020 – GOLD MEDAL

### 1. SPT tracked mini crane

**KLUCZ SERWIS Sp. z o.o. – submitting entity**

**Henan SPT Machinery Equipment Co., Ltd – producer**

SPT mini cranes are designed and manufactured in accordance with EU standards and received the necessary CE and ISO certificates. As a standard, our cranes are controlled by a joystick or a wireless remote controller. They are also equipped with a smart display to monitor the status of the machine. Two motors - diesel for outdoor use and electrical for working indoors - ensure zero noise and reduce exhaust emissions. The machine is equipped with white caterpillars and covered by a two-year guarantee.

### 2. Kubota KX027-4 High-Spec mini-excavator

**HKL BAUMASCHINEN Polska Sp. z o.o. - submitting entity**

**KUBOTA Baumaschinen GmbH – producer**

The weight of Kubota KX027-4 High Spec is within 2600 kg and the machine is provided with two additional hydraulic lines, main pivots in bushes, quick-coupling for the bucket and a spacious cabin with excellent visibility. This mini-excavator has an arm of 1190 mm with a very high breakout force. The excavator uses a proprietary solution of its Japanese manufacturer - twin rollers under the tracks that improve machine stability on uneven terrain. The machine is driven by modern diesel engine with a power of 24 HP, ensuring low fuel consumption and excellent flexibility. Auto-Shift system automatically adjusts the driving speed to the current load of the excavator, reducing fuel combustion and increasing work efficiency by 30%.
